The Petoskey Record, says: "Mr. Thomas Hest left at the Record office last week an egg, the product of a Petoskey hen, which measured 3.3-3.8 inches in circumference and weighed exactly 1 of a pound. Next." But Hest should be careful in regard to pulling hens that lay large eggs, for what is fun for them is rough on the hens.

In addition to the previous large stock of wall paper which has been mentioned in the AVALANCHE, there was received today, 1000 rolls more of Travers's Furniture Rooms, making up the largest stock and greatest variety of patterns ever brought to this section of country.

A few days since it was our good fortune to be caught about dinner-time at the hospitable home of D. S. Waldron, of South Branch. Of course we stopped to feed our horses, and of course, Mrs. Waldron fed us. After dinner we took a look over the farm. The spring work was but just begun, but a fine field of wheat, slightly washed on the hillsides, promises well for the harvest. The cattle have come through the winter in fine condition and his pigs are as good as can be found anywhere. Success is there.

The Saturday Night of Ansonia, in its last issue, says: "Silver has been discovered at Tawas City. A well was being sunk on the place belonging to Jno. Hinton, when rock was pumped up which assayed \$900 to the ton." What a wonderful country this is, for discoveries of precious metals, which are being discovered by the pumping process. Gold and silver is so common in Northern Michigan, that no one pays any attention to it except the local newspapers in the immediate vicinity of the pump.

A good place to break a buggy is in the vicinity of J. P. Hanson's residence, for the reason that you naturally stop for tools to repair it, and while at work, dinner is prepared for you. After which, feeling well, if a man ever does, the genial host will graciously show you over as fine a farm as any one need wish for. A strong gravelly loam, underlaid with sand, on which is now growing as good wheat, clover and timothy as grows anywhere. His stock are in prime condition, and he has hay and other products to sell. This is the country for a farmer if he means business.

What are other's faults to me? I've not a culture's bill. To look at every day I see, And make it wider still. It is enough for me to know The follies of my own, And on my heart the curse bestow, 'Tis not my friends alone."

It was with pleasure we learned of the good fortune that has befallen our friend Rev. Wm. Purman, who served his country well in his hours of peril as an army chaplain, where he contracted disabilities which have filled him full of pain and misery at times ever since. He has been granted a pension of \$20 per month, and received \$500 back pension. (Herald Herald).

Croakers must take a back seat, stay in the woods, or acknowledge that their croaking is without reason. If any man will take a ride through the township of Beaver Creek, and say that the agricultural future of this section is not to be successful, we assert that he is an idiot. Our limited time allowed but few calls, but we used our eyes for all they were worth, and saw scores of acres of as badly blooming wheat as there is in any county in Michigan, and clover and timothy fields that must certainly be very satisfactory to their owners. Evidences of prosperity smiling on every hand must overcome the habitual croaker in time.

"Have you anything to say?" asked Judge Noonan of a prisoner upon whom he was about to pass sentence in the district court of San Antonio. "Yes, Judge," was the reply of the prisoner, whose penalty had been assessed at imprisonment for life; "I think that the time wasted in making that long-winded speech by that young galdot you appointed to defend me ought to be taken out of my sentence."—Texas Siftings.
